January 2023 - March 2024

Web Developer, vinnis.lv (Freelance)

I had the pleasure of collaborating as a freelance professional with Vinnis.lv, where I played a pivotal role in the development of their eCommerce store on WordPress. Leveraging my expertise in web development and WordPress customization, I worked closely with the team to bring their vision to life. From designing user-friendly interfaces to implementing secure payment gateways

August 2023 - January 2024

Web Developer, IdeaLights (Freelance)

During my tenure at Idealights, I applied my expertise in React, TypeScript, HTML, CSS, and JavaScript to develop dynamic and visually appealing user interfaces. Collaborating closely with cross-functional teams, I ensured seamless integration of front-end components, contributing to the delivery of high-quality solutions and enhancing user experiences.

January 2021 - March 2021

Web Developer, VidzemesTolmets (Freelance)

As VidzmesTolmets' Web Developer, I leveraged my expertise in WordPress, PHP, and CSS to create and maintain their website. I implemented customized solutions to meet the company's specific needs, ensuring an intuitive user experience and seamless functionality. My contributions played a vital role in establishing and maintaining the online presence of VidzmesTolmets, contributing to its visibility and success in the digital realm.

January 2024 - August 2024

Web Developer, SIA EDMEDIA (Freelance)

During my tenure at SIA ED MEDIA, I collaborated with partners such as Mūsu Auto Valmiera, Ripo Autocents Valmiera, Auto Capital, premiumcredit.lv, Latvijas Bksa Fedreācija, and Pārdot-auto.lv. Through these collaborations, I applied my skills in web development, utilizing technologies like HTML, CSS, JavaScript, and PHP to create and maintain websites tailored to the unique needs of each partner. My contributions helped enhance their online presence, streamline processes, and drive business growth.

August 2024

Programming Teacher, Vidzemes Tehnoloģiju un Dizaina Tehnikums

As a Programming Teacher at Vidzemes Tehnoloģiju un Dizaina Tehnikums, I provide instruction to young students, helping them acquire foundational knowledge in the field of programming. I guide students through the basics of coding, algorithm design, and software development principles. My role involves teaching key programming languages, fostering problem-solving skills, and introducing students to web system solutions.
